PRESS RELEASE GEO SHOP 2008

Treasures of the Earth, Bijoux and Jewels

He/she returns to Verona the traditional winter appointment of the Geo Shop, from 5 to on December 7 near the tent 2 of the fair in Verona will be given appointment 200 exhibitors coming from 24 different

nations. Mineral, fossils, hard stones, precious, seed-precious, pearls, bijotteria, jewelry, various instrumentations and complements to the attire. This the vast merceologia that will attract in the three days of exposure a public thick coming from Italy.

From some times we have observed that the demonstration veronese anticipates in the colors and in the tendencies that that will be the fashion of the Prêt-to-porter and of the precious accessory or seeds precious that is, for next year. It seems that all the tones of the violet one, above all the more dark color, the tones of the grey ones, the green bottle, the blu as new black and, the black, has however the upper hand, here so the approaches with the Onyx stones, Amethyst, variegated Agates on fabrics geometric and floral years '70, braids, embroideries and strass from Zarina, studs inserts in skin or in varnish type new punk. The dominion of the gold and the silver both yellow it continues how white or poorer metals as the brass or the nikel shiny or anticati that is, chains of all the types also mixed, pendants and big charms. It continues the use of the resin however because light and therefore adaptable to workmanships sovra dimensionate and garish colorations to be recommended therefore for all the ages and to the most careful public to the variation of the fashion. Don't seem tramontare the line " King & Queen" and the line "Dark", a series of components of different material in the original forms of playing cards and skull and crossbones, resin and metal with strass in crystal set Swarovski.

More and more appreciated the idea to realize the Bijoux following her own tendencies and his/her own taste. And' for this motive that for every day of the fair numerous firms will organize to every time raced of realization of prices low Bijotteria (10/15 European).

But doesn't fear the friends collectors, mineral, fossils and shells will be present as always in notable exposures.

Gigantic Amethyst geodi, splendid druse of Quartz and colored wood sections fossil they will attract the more profane, while others mineral as Zeoliti, rare crystallizations of the Pomegranate, new recoveries from Afghanistan will have the attention of the more experts.

The Fair in the three days of opening will observe the schedule 9/18 (last entry) with European Ticket of 5 for the adults and of 3 European for the meeting places, carriers of handi - cap and them companion they will have free entry. A lot of firms stick to the initiative of reimbursement ticket (greater info in reception office).

In the area on purpose prepared Dad Christmas it will give a toy to all the babies that will visit the exposure (and they won't miss the surprises for the adults).
